OFFICERS THWART MOB'S ATTEMPT TO SEIZE NINE NEGROES

HUGE CROWD MAKES ROUND OF JAILS SOUTH TEXAS; BURN CAFE

EL CAMPO, June 18.—(P)—A lynch-bent mob, thwarted in successive attempts to seize nine negroes, dwindled away early today after firing a cafe here in which Deputy Sheriff Tip Simmons, 48-year-old world war veteran, was stabbed to death.

Wary officers, who kept one jump ahead of the armed, howling mob of 300 and finally placed the negroes—five men and four women—in an unnamed jail, believed tension was lessening. Deputy Sheriff A. H. Reitz said he didn't believe the mob would form again.

Peace officers outwitted the mob, some members of which were armed with sawed-off shot guns, by speeding the negroes from one jail to another during the night.

Late last night the mob formed at Wharton, 3 miles from here, and stormed the jail. Leaders demanded the negroes and Sheriff E. J. Koehl permitted members of the mob to search the jail. They found that the negroes had been removed.

Appeared at Bay City. The mob next appeared at the Bay City jail, where a group of men searched the jail upon invitation of Sheriff Harris Miner. The baffled mob again found that the negroes had been removed before them and disappeared, apparently trying to trail the officers with the negroes.

Early today the growing mob, in which there were some of the mob's fury and, officers reported, it dispersed. Officers said the cafe proprietor

Stay in Supreme Court's Decision Bankruptcy Act

WASHINGTON, June 18.—(P)—A stay of the supreme court's invalidation of the 1934 municipal bankruptcy act was directed in an order received today at the court clerk's office.

The order was signed at Philadelphia yesterday by Associate Justice Roberts. It is to continue until the court can act at its full meeting on an application made several days ago, for rehearing of the case.

Cameron County, Texas, water improvement district No. 1 asked the rehearing on the application made several days ago, for rehearing of the case.

SENATOR GLASS APPARENTLY IS HEADED FOR MORE INFLUENTIAL POSITION OVER MONEY POLICY

WASHINGTON, June 18.—(P)—Senator Carter Glass of Virginia appeared headed today for a new position of influence over the nation's monetary and banking policy almost on the eve of a Democratic administration and week determined to fight for platform plank representing his views on money and banking.

Retail Sales In Corsicana Show Large Increase

That business conditions are improving in Corsicana is reflected in the retail sales of department stores.

Corsicans led the state in percentage increase for the month of May as compared with the same month of 1935.

The increase for this city amounted to 26.6 which indicates the steady growth of business in all lines of endeavor.

OPPRESSIVE HEAT BLANKET WARNING OF DREAD DROUGHT

HIGH TEMPERATURES FROM ALASKA TO FLORIDA; GRASSHOPPERS ALSO

By TOM YARBROU, Associated Press Staff Writer. KANSAS CITY, June 18.—(P)—An oppressive blanket of early heat, extending from Alaska to Florida, brought new omens today to warn farmers of an old enemy—drought.

Along with the threat of a dry season came more reports of its companion scourge, grasshoppers, preying on Midwestern crops and giving rise to calls for outside aid.

Reports of the season's highest temperatures were numerous, with the mercury hitting well above the century mark.

From Alaska, "the land of the frozen north," reports of an unofficial reading of 110 degrees at Seward yesterday.

The Alaskan danger was in forest fires more than in drought, but showers checked two "outbreaks" of Prince of Wales Island and in the Homer district.

Only 100 miles south of the Arctic Circle, Fairbanks had a high of 82 degrees, and Dawson, Yukon Territory, had a maximum of 84.

A crop killing drought created an emergency in the Dakotas and

MAN SENTENCED DIE FRIDAY UNDER KIDNAP LAW SAYS HAPPY THURSDAY

By FRANCIS E. BARDEN, Associated Press Staff Writer. McALESTER, Okla., June 18.—(P)—Within the shadow of the gallows, Arthur Gooch joked today with his care-worn mother and threatened to "paddle" sobbing 20-year-old Marie Lepley, brunet waitress, his "girl."

Shortly before the death warrant was to be read, Gooch condemned to hang at daybreak tomorrow for the kidnapping of two Paris, Texas, officers, was visited by his mother, Mrs. Adella Gooch, and Miss Lepley.

They had taken Gooch, first man sentenced to hang under the so-called Lindbergh law, from death row at Oklahoma penitentiary to the death cell a few feet away from the prison's electric chair.

Mrs. Gooch, wrinkled, slightly deaf, blind in one eye, kept her nerve as she approached the cell. But Gooch's sweetheart, who quit her job in a Muskogee restaurant yesterday, declaring she would "die with him," broke into sobs.

"Stop crying," said the 27-year-old condemned man, "I'll have to paddle you. This is all coming out all right. Why I've never had more hope than right now."

"I don't want to see my son, unless I have to," Gooch told his mother. "It's had enough for him to have my name."

Gooch has a son, Billy Joe, 6. The child's parents are divorced. Posed as Gooch's sister, Miss See GOOCH, Page 11.

NEW SYSTEM FOR CORPORATION AND DIVIDEND PAYMENTS

MEASURE ALMOST READY FOR FINAL CONGRESSIONAL ACTION THURSDAY

WASHINGTON, June 18.—(P)—With new revenue estimates on a compromise tax program not yet prepared by the treasury, senate-house conferees were unable today to reach a final agreement on the tax bill.

They said, however, they expected to seal a tentative understanding on the vital measure this afternoon or tonight.

Lacking treasury calculations on a new plan for a graduated tax on both normal corporation income and undistributed corporate earnings, the conferees spent the morning working out minor details of the involved measure.

OPERATORS WARNED TEXAS OIL OUTPUT MAY BE REDUCED

CONTINUED DRILLING NEW WELLS IN ALL PARTS OF STATE BRINGS INCREASE

AUSTIN, June 18.—(P)—Operators attending the monthly proration hearing of the railroad commission heard warnings today that Texas oil production might have to be reduced.

The warning sounded coincidentally with an announcement by Ernest O. Thompson, commission chairman, of a slight increase in the United States Bureau of Mines estimate of the market demand for Texas crude during July.

The bureau's estimate was 1,146,000 barrels daily, compared with 1,139,750 barrels estimate in June.

Houston Bolin, independent operator of Wichita Falls, addressing the commission, asserted it was apparent that Texas allowable production must be reduced, and "improved" that production be kept in line with the bureau of mines figures.

MAXIM GORKY, MOST FAMOUS OF RUSSIAN WRITERS, IS DEAD

HELD OFFICE IN SOVIET GOVERNMENT BUT WAS NOT MEMBER COMMUNIST PARTY

MOSCOW, June 18.—(P)—Maxim Gorky, 68, most famous of contemporary Russian writers, died today.

Gorky, attended by Soviet Russia's best medical talent, succumbed to a ten day siege of pneumonia.

The pneumonia had attacked his single lung following a severe attack of influenza. The other lung was destroyed years ago, and a tuberculosis infection set in after the author had wounded himself with a revolver.

Gorky had returned to Moscow for permanent residence four years ago, after living for many years in Sorrento, Italy, where the climate was favorable to his health.

Held in the highest esteem by the bolsheviks, he was one of Moscow's few residents with a private home.

Ex-Convict Being Sought for Fatal Stabbing of Woman

HAMMOND, La., June 18.—(P)—Tangipahoa parish officers searched for Kinchen Bridges, 30-year-old ex-convict, who was arrested in connection with the fatal stabbing early today of Mrs. Vyrean Caraway, 30, a Phonchatoula cafe waitress.

Cote Angele, town marshal of Ponchatoula, who turned the woman over to a Hammond physician for treatment of multiple wounds, said the stabbing occurred on the New Orleans-Hammond highway just outside of Ponchatoula, while Bridges was escorting the woman to her home from work.

The town marshal said Mrs. Caraway before she died blamed the stabbing on a more European religious and anti-communist literature the Black Legion circulated.

Another Black Legion informant, James Stewart, of Ecorse, requested and received a police guard after telling of a mysterious visit by three strangers to his home during the early morning hours.

FEDERAL PROBE OF STRIKE FLOGGING ORDERED

President Roosevelt ordered a federal investigation into the Arkansas cotton workers' strike following an appeal by Norman Thomas, Socialist nominee for president, who urged government intervention on grounds that Miss Willie Sue Bladen, 29, of Memphis, Tenn., and Rev. Claude C. Williams, 41, of Little Rock, Ark., had been beaten by a band of six men near Earle, Ark. Miss Bladen said they had gone to Earle to conduct a funeral. Arkansas officials appear uninterested and say all they know of flogging is what they read in the papers.

NEW YORKER TELLS OF STRANGLING GIRL IN SAN FRANCISCO

SAN FRANCISCO, June 18.—(P)—Albert Walter, Jr., 28-year-old New Yorker, was charged today with the silk stocking murder of 24-year-old Blanche Cousins, former Idaho Falls, Idaho, girl who he said had resisted his advances.

Walter walked into police headquarters last night and told astonished officers: "My conscience bothers me—I've murdered a girl."

He led the officers to an apartment in the fashionable Nob Hill district. They found the body of the girl in a bed, a silk stocking knotted about the throat, and tied to the bedpost.

Police inspectors George Engler and Frank Lucey and Deputy District Attorney Frank McMahon said Walter told them he "thought" he attacked the young woman after she lapsed into unconsciousness when he strangled her Tuesday night.

They said he related: Walter met Miss Cousins on a bus between Salt Lake City and San Francisco. The acquaintance was continued after they reached San Francisco. Tuesday night he

JOHNSON DECLARES THIRD PARTY MOVEMENT CANNOT WIN; LUNATIC FRINGE

NEW YORK, June 18.—(P)—Hugh Samuel Johnson, the one-time NRA administrator, dusted off his 15-months-old "lunatic fringe" accusation today and plopped it in the lap of the potential third party presidential campaign to which the Rev. Charles E. Coughlin tentatively has lent his voice.

"It can't win," said the retired brigadier general in a hotel room interview. "It's too late."

He enlarged the "lunatic fringe" charge which he first flung at the followers of Father Coughlin and Senator Huey P. Long in an address here March 4, 1935, to cover all divisions of an entente announced Tuesday in Chicago by the late senator's political heir, the Rev. Gerald L. K. Smith.

These, besides the Detroit priet's National Union for Social Justice and the Long-Smith Share the Wealth Clubs, are the followers of Rep. William Lemke (R-ND) and the pension-seeking adherents of Dr. Francis E. Townsend, Mr. Smith said.

"I certainly do consider them

STORM BREAKS IN HOUSE OF COMMONS RESULT SANCTIONS

EDEN'S ANNOUNCEMENT OF PLAN TO LIFT PENALTIES BRINGS OPPOSITION

LONDON, June 18.—(P)—Prime Minister Baldwin declared in the house of commons today that collective security has failed and called for peace alliance of Great Britain, Germany, and France.

The prime minister's words came after a storm in the house when Foreign Secretary Anthony Eden announced Great Britain would lead a move for the lifting of League of Nations sanctions from Italy.

Eden's statement brought cries of "Shame! Resign!" from the opposition members, although a little loyal cheering came from the government supporters.

Prime Minister Baldwin warned the house: "We, as trustees of the people, ought to remember if there is a war against this country nearer than the Mediterranean, they will pay for it on the first night with their lives. The first blow may come from the air."

Saying collective security had failed, Baldwin declared: "If possible, it shall not fall again. . . . I regard it as of first importance that Germany, France, and ourselves should work for peace throughout all Europe side by side."

The prime minister asserted the "part Germany can play for good or evil in Europe is immense."

He conceded he could not see exactly when the next opportunity might come for the British, the Germans and the French to get together.

The policy announced by Eden, Baldwin declared, "commands the unanimous support of the government. We believe our method is

"Lucky" Luciano Sentenced Long Term In Prison

NEW YORK, June 18.—(P)—Charles "Lucky" Luciano, described by Prosecutor Thomas E. Dewey as the head of a vice syndicate with a \$12,000,000 a year income, was sentenced today to 30 to 60 years in prison.

Eight lieutenants convicted with Luciano on 62 counts of an indictment charging compulsory prostitution and four who pleaded guilty also were sentenced by Supreme Court Justice Philip J. McCook.

The convicted men had faced a possible maximum sentence of 1,340 year imprisonment. The verdict was returned June 7.

Luciano was the first defendant to face the judge for sentencing following a brief outline of the part each played in the operations of the vice syndicate.

A federal police guard was stationed both inside and outside the courtroom.

NOMINATION OF ROOSEVELT BY ACCLAMATION AND LONDON WIN IN NOVEMBER NEW FORECASTS

WASHINGTON, June 8.—(P)—A prediction that the democrats would break a precedent of 48 years standing by renominating President Roosevelt by acclamation took its place today beside a republican forecast that the London ticket would win overwhelmingly in November.

FRENCH GOVERNMENT REFUSES REQUEST OF U. S. AMBASSADOR

POLICE ACTION AGAINST STRIKERS IN AMERICAN HOSPITAL DENIED

PARTS, June 18.—(P)—Officials of the American Hospital yielded today to strikers' demands, ending a walkout of employees after the French government refused a request by Ambassador Jesse I. Straus that police evict the strikers.

Previously, on the urging of the ambassador, government authorities said they would take action against the employees crippling the operations of the hospital only if they refused to accept terms of conciliation.

The settlement was arranged between delegates of the general federation of labor and the hospital authorities.

Ambassador Straus asked that police evacuate striking assistants, scrubwomen, and other employees from the hospital at Neuilly-Sur-Seine, declaring an occupational strike. The institution could not be tolerated.

VICTIM OF AUTO ACCIDENT WILL BE BURIED ON FRIDAY

Funeral services for W. T. (Buck) Griffin, aged 66 years, who was instantly killed in an automobile accident near Powell Tuesday night at 10 o'clock, will be held from the chapel of the Corley Funeral Home Friday afternoon at 5 o'clock with interment in Oakwood cemetery. The time was set originally for Thursday afternoon but was postponed because of the relatives living in other states could not reach Corsicana before Friday.

Griffin was a big-scale farmer and was prominent in political circles of Navarro county for many years. He resided south of Kereens. His automobile turned over five times, officers reported, after it spun off the edge of the pavement, striking the dirt shoulder of Highway 31. Mrs. Elsie Knipe, 19, Corsicana, is in the P. and S. Hospital suffering from injuries sustained in the wreck of the automobile. Both Griffin and Mrs. Knipe were thrown from the demolished automobile. The motor was still running and the lights were burning when passengers discovered the tragedy.

Surviving are nine children, Mrs. A. D. Thomas, Overton; Mrs. Harve Travis, Corsicana; Mrs. J. C. Cotten, Eunice, N. M.; Mrs. Tommie Phillips, Kereens; Mrs. Griffin, Kereens; Oscar Griffin, Kereens; Walter Griffin, Corsicana; and W. T. Griffin, Jr., Kereens; seven brothers and sisters, Oscar Griffin, Yuma, Ariz.; Archie Griffin, Yuma, Ariz.; Charles Griffin, Bailey Park, Mo.; Rufus Griffin, Yuma, Ariz.; Mrs. Elizabeth Mathis, National City, Calif.; Mrs. Martha Crow, Yuma, Ariz.; and Mrs. Emma Kilecres, National City, Calif., and other relatives.

The funeral services will be conducted by Rev. E. T. Miller, pastor of the First Baptist church.

Bearers will be members of the Kereens Masonic lodge.

PRISON RIOTS AND STRIKE OF 100,000 GIVE SPAIN TROUBLE

MADRID, June 18.—(P)—Prison riots and a new walkout of 100,000 store employees in Barcelona sent Spain's labor fever mounting today.

City guards were mobilized to put down disorders in Alcala, De Henares prison near the capital as looting and burning broke inside the walls.

One prisoner was wounded by the guards during the riots. Inmates broke windows and furniture, and set fire to their beds and mattresses.

The convicts began the disorders to protest against confinement of several of their companions in underground cells for infractions of prison rules.

Department of labor and shop workers in Barcelona, the city and province, marched from their posts in support of demands for higher wages.

Butcher shops and fish market employees and printing pressmen followed suit.

Three bombs damaged a brick factory and company hospital on the outskirts of Barcelona.

Return from Lufkin Where Union Revival Has Been Conducted

Dr. and Mrs. Joe B. Williams have returned from Lufkin where they have been conducting a union revival campaign for the past two weeks. They report a very successful meeting with a fine spirit of co-operation prevailing throughout the series of services.

Dr. and Mrs. Williams are in charge of the Whites Chapel union mission work here where a fine Sunday school was organized under their leadership about a year ago. They have also organized the Whites Chapel Boosters band of eighteen members, both of which are a real credit to any community.

The Sunday school meets every Sunday afternoon at 2:30 o'clock. H. M. Basham, Supt. Band practices every Friday night at 8 under the instruction of Prof. B. B. Key Jr. Young peoples' prayer meeting Sunday night at 7:45. The public is cordially invited to attend these services.

Sociable Bandits.
NEW YORK.—Israel Berman, a truck driver, got a picture show ticket and a package of cigarettes from three bandits who made him give over his truck with \$1,000 worth of meat.

While one of the bandits drove off with the truck, the others took Berman into a theatre and forced him to sit through the picture. After the show they gave the driver 15 cents and sent him into a store for elegant ties.

When he came out they were gone.

Golfers Dislike Birds.
WILLINGTON, N. Z.—Predictions of crows have officials of the municipal golf course in a quandary.

Many golfers reported that the birds flew away with their balls. One irate linksman said he lost five balls on two holes and saw the crows fly away with them.

The club is now paying a man by such means does not cost a stroke, but then—it does cost a ball.

Little Man's Busy Day.
DALLAS.—All in one day, the following things happened to 9-year-old Bryan Garrett:

He twisted his toe in a bicycle wheel. Pretty soon his playful brother hit him with a brick. A wasp stung him. He scratched his leg on some briars and, winding up the day, he fell off a barn and received a cut that required seven stitches.

**BODY OF SLAIN
YOUTH SENT HOME
FOR INTERMENT**

CORPUS CHRISTI, June 18.—(P)—The body of Rhodes Batill, Jr., 24, killed here June 12 in an attempted escape from officers, has been sent to New Franklin, Mo., for burial.

Batill, who gave his name here as Jack Estes, had been taken to San Antonio to assist officers in recovering \$579 taken in the robbery of a local theatre manager June 6, and was being returned to the Nueces county jail when he made the break. Rufe Oliver, city detective, who fired the fatal shot, said he was aiming at Estes' legs in an attempt to stop him. The youth had been positively identified as the bandit who held up the theatre manager and also a local cafe several nights earlier.

MEN OF MYSTIC FELLOWSHIP FACING THE WORLD CRISIS *

Apart From Halls of Legislation And Conferences of Business Men, the Day's Great Issue Is to be Settled — Practical Implications of Christian Faith In the Resurrection.

By WILLIAM T. ELLIS

One night, nineteen hundred years ago, something was started amongst a little group of Jews, gathered secretly in an upper room in old Jerusalem, which may have a greater effect upon today's world crisis than all the deliberations of parliaments and congresses and League of Nations assemblies and economic conferences that fill the day's newspapers.

This was a sensational and historic meeting. It had been planned, and its outcome was certainly unexpected. Those present were the survivors of the mystic fellowship of followers of Jesus of Nazareth. But now He had been three days dead. It was the evening of Easter Day, the day of the resurrection of an empty tomb and a risen Jesus, the little band of comrades had come to the end of their old life.

Their hopes and plans had died with their Leader. He had said there was nothing for them but to return to the tread-mill routine of their old occupations. They had gathered that evening, a sorrowing and bewildered and defeated group, perhaps for the first time, in the room of sacred memories. They were discussing Peter's report of his having seen the Lord; and two disciples, hastening breathless back from Emmaus, had an amazing tale of their walk and talk with the risen Jesus, the day of resurrection, the news was being discussed.

A Leader For The Greatest Task. Suddenly, startlingly, incredibly—in spite of locked doors and thick walls—Jesus Himself stood in the midst of His friends, greeting them with the familiar salutation, "Peace be to you!"

Were they seeing a ghost? The alarmed and excited group were soon calmed by the familiar tones that they had heard so often, as the Master said, "I am very real. Feel me and see, for a spirit has no flesh and bones, as you see I have. Have you any food here?" They gave Him a piece of roasted fish, and He took it and ate it in their presence.

Thus was the tremendous reality of the resurrection once more certified. Jesus, the world's crucified Saviour and Leader, had risen from the grave and returned to His friends with plans for a new order of human life. For the second time in all history, a fresh start was to be given to the race. This practical aspect of Christ's victory over death has commonly been obscured by esoteric and mystical considerations. Actually, here was a new Leader for the world's greatest task; the task that has become so acute in our own day.

The Only Way Out. Like every other honest man concerned for our own times, if I thought that Hitler, or Mussolini, or Stalin had the master word for a new order of civilization, I would devote my life to echoing that word. But I know that the secret of our emancipation from the forces of evil lies only with the crucified and risen Christ; therefore, by pen and tongue, I proclaim the revolutionary truth, that penitent and pardoned peoples, aglow with the divinely-bequeathed power of the risen Lord, can give us the new manner of life for which we are all hungering. Changed conditions are the consequence of changed lives.

All practical hope for a made-over society is based upon the resurrection truth. This truth is associated with a commissioned discipleship. The friends of Christ were charged, by their Master's final instructions, to be witnesses to the new life-changing program. His presence and power were promised them for the fulfillment of this supreme enterprise.

Slowly, But Surely. When we consider the vastness of the task involved, and the tremendous work of preparation to be done, by the passage of time by the improvement of world-communications and by the self-realization of Christianity, we may partly understand the slowness (nineteen hundred years of Christian history already gone!) that has marked the accomplishment of the mission entrusted to those upper room disciples and their successors. Yet the commission still holds good, and is being carried out. The work of world evangelization at this moment under way is one of the wonders of our time.

In plain speech, the truth of the resurrection of Jesus, with its clear implications, is the chief social force operating in our time. Deep in the personalities of human beings the religious consciousness is being stirred. High and low—but mostly the plain people—are nowadays asking themselves whether Christianity is not the solution of our time's puzzle. The sufficient answer to our every question is just—God.

When Will The "Break" Come? From all quarters of earth come evidences that this spiritual basis for the great change is understood. Statesmen and economists, scientists and business men, editors and teachers, all are proclaiming that a revival of religion is indispensable to a better world order. Myriads of devout souls are praying for and expecting a fresh manifestation of spiritual power—a fulfillment of Christ's resurrection promise. Signs are not wanting of a deep-flowing spiritual tide amidst the nations.

Only a stupid person could fail to be impressed by the millions of worshippers, in all parts of this western world, who arose before daybreak to attend sunrise services last Easter. In Ollerup, Denmark, where the Oxford group

MOB

(Continued From Page One) was not connected with the slaying but the mob, enraged over being baffled by the officers' prompt action, gave vent to its fury by firing the scene of the crime.

Whereabouts Secret. The whereabouts of the prisoners remained a secret. No charges had been filed against the negroes, who were arrested after Simmons' death early yesterday.

The negroes had been celebrating the arrival of bonus bonds when a crowd swarmed around Simmons. Simmons pulled his gun and fired, apparently only to hold back the crowd. Knives and razors were flashed, however, and he was overpowered from behind. He died a few minutes later.

A check of jails in a wide section of South Texas failed to reveal whereabouts of the negroes. Unofficial reports said the officers, three automobile loads of deputy sheriffs and Texas Ranger E. Davenport, planned to place the negroes in jail at Houston.

Tenth Negro Arrested. EL CAMPO, June 18.—(P)—Deputy Sheriff A. H. Reltz announced today that a tenth negro was arrested in connection with the killing of Tip Simmons at a negro dance hall early yesterday.

The officer did not say where the negro was held but it was believed he was lodged in the unnamed jail to which nine other negroes were taken after officers outwitted a mob of 300 persons who sought to lynch them.

Officers said the tenth arrest probably would be the last one, since they said they believed they had in custody all the negroes involved in the stabbing of the World War veteran.

JOHNSON

(Continued From Page One) the lunatic fringe," Johnson declared.

In a mood different from that which marked his attack on Father Coughlin and Senator Long as "Pied Pipers" threatening to lead the United States into "dictatorship or chaos," Johnson said he felt that the republican adoption of a counter-felt new deal platform at Cleveland indicated the electorate is sanely liberal.

This, he asserted, indicated there is "no danger of its going either to a lunatic fringe of extreme radicalism or extreme reaction."

Had Senator Long lived, Johnson declared, a third party movement might have succeeded in defeating President Roosevelt.

The general said his "fear always was that the liberal element he (Roosevelt) represented might be affected by a third party split which could have had no other result but the election of a reactionary."

POLITICS

(Continued From Page One) party platform. Those in charge of the work declined to talk about it, but some sources indicated that tentative plans drawn for submission to the conventions resolutions committee make a tact bid for support by progressives.

Local Business and Professional Men Invited to Luncheon

More than 30 representative business and professional men of Corsicana and Navarro county were invited to attend a luncheon at the Navarro Hotel at 12:15 p. m. Friday, according to Terry McCary, chairman of the Thomas Alva Edison Memorial for Navarro county.

Mr. McCary announced that a short snappy program would be presented, and urged all those invited to be on hand promptly.

Texas Couple In Fatal Shooting Del Rio Highway

DEL RIO, June 18.—(P)—John W. Whittington and his estranged wife, Mrs. Isabel Whittington, were found shot to death on a highway four miles east of here last night. The man and woman were about 60 years old.

Jesus Barragan, a taxi driver, was found in the throat during the shooting and was brought to a hospital here. His condition was said to be serious.

Barragan told officers he had taken Whittington, a world war veteran, and his wife to Brackettville in connection with the veteran's bonus.

He said they were returning when Whittington asked him to stop the car. Barragan did so and alighted to inspect the tires. He said Whittington suddenly began firing a small pistol at his wife, and when she slumped, turned the gun on the taxi driver, then himself.

No verdict was returned at the inquest pending further testimony of the witness.

STRANGLER

(Continued From Page One) had dinner at her apartment. They were seated on a couch after dinner.

"She resisted me as she had done several times before," the officers counted Walter. "I became incensed. I started to choke her. From then on I don't remember exact details."

Mental Anguish Sets I. Then, for a day, Walter wandered about the city, drinking, he told police. Last night, he said, mental anguish prompted him to give himself up and tell police of the tragedy.

Walter said he has a wife in New York, where he formerly was manager of a restaurant. The New Yorker said he had never been in trouble over women before.

Miss Cousins, daughter of Mr. and Mrs. David Cousins of Shelley, Idaho, left home June 1 to attend business college here. She had worked for eight years in the Latter Day Saints Hospital at Idaho Falls.

Walter was questioned about the Louise Jeppson murder in 1933, in which the girl was found strangled and criminally attacked in Golden Gate Park. He admitted being in this vicinity at the time, but claimed he was being held at Alcatraz prison as an army deserter on May 13, when the slaying occurred.

Separated Month Ago. NEW YORK, June 18.—(P)—Angela Hoskins, 28, who identified herself as the estranged wife of A. Walter, Jr., located today at a Greenwich village studio apartment, said she and Walter had been in the restaurant business here before they separated a month ago.

She said they were married a year ago and that her husband's father lives in Boston. When they separated, she said, Walter left on a business trip.

FRANCE

(Continued From Page One) The strike was regarded as endangering the care of 85 patients, most of them Americans and 23 of whom are in a serious condition. The strikers demanded shorter hours.

Hospital officials said the ambassador's request was refused on the grounds that police action might "cause trouble which might be serious."

At the same time the French cabinet decreed the dissolution of four rightist leagues in an effort to break up combat groups and private militias.

The action of the government was directed especially against the Croix de Fu, the nationalist organization organized by World War veterans and commanded by Col. Francois de la Rocque.

An official of the Croix de Fu immediately announced the dissolution might "drive the leagues under cover where they would become a real menace."

The other leagues disbanded were the league for French Solidarity, the Young Patriots, and the Blue Shirt Franciscans.

The communist party had demanded the disbandment of the rightist "semi-military" forces, blaming them for yesterday's clashes at Marseille between strikers and nationalists.

The cabinet also approved bills for the defense of the franc, the reorganization of the Bank of France, the creation of a wheat board to "organize the market" by fixing a minimum price for wheat.

Bonus Causes Man Kill Aged Mother; Was Celebrating

SALT LAKE CITY, June 18.—(P)—War Veteran Harry Olson, 42 was charged today with involuntary manslaughter in the alleged "bonus celebration" death of his 72-year-old mother.

The complaint on which the charge is based was signed by Traffic Investigator H. E. Perice. He asserted the aged woman, Mrs. Christine Olson, was run down and injured fatally Tuesday by a cheap bonus-purchased car driven by her drunken son.

The ex-soldier, released under \$2,000 bail, tearfully protested he did not remember "much about what happened," but attributed "this terrible mess" to "celebration of the bonus payment."

Two farm women discovered Mrs. Lovett, after hearing her moaning. The Texas woman died in a hospital here a few hours later.

Relatives, whose addresses were found on letters in Mrs. Lovett's purse, came here from Southern Oklahoma and identified the body. They were Mrs. Mary C. Jeffries of Healdton, and a sister, Mrs. Lillian Scarbrough of Ardmore.

Mrs. Lovett suffered from diabetes, they said. In her purse was found a hypodermic needle and a small quantity of insulin, used in treating the disease. It was believed she had come to Oklahoma to obtain treatments from Indian "herb doctors."

She had been in the Asher neighborhood some ten days, arriving in an automobile which was found at the farmhouse where she died.

She had both money and groceries, but Edwards said apparently she had become too weak to prepare food.

Charles Ashcroft, Former President East Texas CC III

DALLAS, June 18.—(P)—Dr. Robert B. Giles said today the condition of Charles Ashcroft of Sulphur Springs, former president of the East Texas Chamber of Commerce, was "very grave."

Dr. Giles said the prominent East Texan was operated on two days ago for a ruptured appendix and had developed general peritonitis.

He said Mr. Ashcroft became ill at his home and was rushed here for the operation.

ARKANSAS COTTON STRIKE TROUBLES TAKE NEW TURN

PROMINENT MEMPHIS WOMAN REPORTS FLOGGING NEAR EARLE, ARKANSAS

MEMPHIS, Tenn., June 16.—(AP)—Cotton strike sympathizers added the purported flogging of a Memphis woman and a Little Rock minister to charges of terrorism against east Arkansas planters today.

Miss Willie Sue Blagden, 29, former social service worker, exhibited two black and blue bruises five inches wide across her back in support of her story that she and the Rev. Claude C. Williams were whipped by six white men near Earle, Ark.

She asserted they were beaten with the belly band from the harness of a mule when they went to Earle late yesterday to conduct the funeral of a negro tenant farmer reported "slain."

Miss Blagden returned to Memphis by train early today. She reported Williams, whom she identified as a Presbyterian preacher, member of the Religion and Labor Foundation, and vice president of the American Federation of Teachers, had gone to Little Rock.

Efforts to reach him there were not immediately successful. Sheriff Howard Curdin of Crittenden county said he planned to go to Earle shortly to investigate.

Miss Blagden said she "certainly would" assist in the inquiry if the sheriff requested it.

"I would not afraid to go back," she said. "I would know every one of those men if I saw them again."

Williams, at his home in Little Rock, asserted he was beaten in four or five spots and struck more than 20 times.

"Five men beat me while another remained in an automobile," he said.

"I am blood-shot and black and blue. The insult is unbearable. I wouldn't have believed my native South could tolerate such conditions."

Miss Blagden said she was struck four times across the back and thighs with a heavy leather strap studded with brads, and that her companion was lashed 14 times.

A doctor, who asked that his name be withheld, said he examined Miss Blagden and found three bruises about five inches wide across her back and thighs. Miss Blagden said she and the Rev. Williams had gone to the Arkansas town in an effort to determine if Frank Weems, negro tenant farmer, had been beaten fatally in an altercation growing out of the Eastern Arkansas cotton strike.

"Miss Blagden's mother, Mrs. Ola Blagden, said her daughter was home from New York on a visit. A brother, George Blagden, is a young Memphis attorney who won the Toronto marathon swim a few years ago."

The cotton strike was called in Eastern Arkansas several weeks ago by the Tenant Union, an organization not affiliated with the A. F. of L. The walkout has been accompanied by charges and denial of civil liberties. Workers seek a \$1.50 daily wage.

Ask Roosevelt Take Action. NEW YORK, June 16.—(AP)—Norman Thomas, socialist candidate for president, asked President Roosevelt today to take action in the alleged flogging of a young woman and a Presbyterian minister near Earle, Ark., last night.

In a telegram to the Chief Executive, Thomas said: "Latest developments in Arkansas reign of terror include the beating of a young woman, Miss Blagden, and the worse beating and kidnapping of Rev. Claude Williams."

"You have just come from Arkansas where you eulogized the state and its laws, especially Senator Robinson, without reference to peonage, mob law and murder."

"I appeal to you, not only as President of the United States, but as head of a great political party, to act in this monstrous perversion of everything decent in the American tradition."

Minister Killed In Gravel Pit Cave-In

MINERAL WELLS, June 18.—(AP)—The Rev. George Shawver, 35, lost his life today in a gravel pit accident while working on a job he had taken to supplement his income as a rural minister.

He was fatally crushed in a cave-in near Perrin, 18 miles north of Mineral Wells, dying shortly after being brought to a hospital here.

L. G. Kammerdiner, superintendent of the Perrin school in Jack county, who was directing the loading of a truck with gravel, was buried to the hips but escaped serious injury.

The Rev. Shawver was minister at Barton's Chapel, Wizard Wells and Post Oak churches in Jack county and Rock Tank church in Parker county.

He was survived by his widow and four children.

Corsicana, and Mrs. Massey was a very popular teacher in the public schools of Coolidge.

After a wedding trip through South Texas, Mr. and Mrs. Massey will be home to their friends at 134 West Second avenue.

Mr. R. C. Jernigh and Mrs. Dennis Frifith of Corsicana were out of town guests.

LANDON AND KNOX MAP REPUBLICAN CAMPAIGN STRATEGY

VICE PRESIDENTIAL CANDIDATE CALLS ON GOP LEADER IN KANSAS CAPITAL

By HUGH WAGNON Associated Press Staff Writer.

TOPEKA, Kas., June 16.—(AP)—Gov. Alf M. Landon and Col. Frank Knox clasped hands today with an avowed determination to "let the truth be known about the vital issues of the campaign" and to lead the Republican party to victory in the November presidential election.

Meeting for the first time as Republican presidential and vice presidential nominees the two men stood on the steps of the Kansas capitol "in good song growing weather" and chatted confidently preparatory to a vital study of strategy with the high command of their party.

"I expect to spend a couple of days here," said Knox, "and then back to Chicago."

"What I do then, depends on the boss here."

"This is going to be a real partnership," Landon put in. Asked if he were anxious for the campaign to begin Knox said: "The sooner the better, how do you feel, governor?"

"That's right," replied the governor. "The sooner the better."

Plan Speaking Engagements. Across the luncheon table at the executive mansion of Landon the conferees hoped to get down to brass tacks—the speaking engagements of Knox and Landon, the campaign participation of Herbert Hoover and the Idaho independent, Senator Borah, as well as the all important question of raising campaign funds.

His red hair waving, John D. Hamilton, the new Republican national chairman, was at Landon's elbow while Henry P. Fletcher, the retiring chairman, nearby to render advice.

Present with the new party leadership also were such veterans as Charles D. Hillis of New York and Ralph E. Williams of Oregon, national committeemen.

Prairie States Claimed. "The typical prairie states are going to have typical republican majorities," Knox said.

"Indiana is debatable territory. good fighting ground."

"New York is very good territory for us, developing all of the time."

As their press conference opened, Colonel Knox turned to the governor with perspiring brow and remarked "this is good corn growing weather."

"Yes, this is fine," said Governor Landon. "I'm glad you are interested in our Kansas crops."

"Well, Illinois is a leading corn state," Knox replied.

A plan for Gov. Landon to open his presidential campaign with an address at his birthplace, West Middlesex, Pa., had the tentative approval of the republican strategists.

Middlesex Logical Place. Mrs. Mariott M. Scranton, national committeewoman for Pennsylvania, said: "I think West Middlesex is the logical place for Governor Landon to start his campaign. We would be delighted to have him start the battle there."

Hillis commented: "This is my first time to meet

Governor Landon. I am almost anxious that the east see and hear him so it might learn what manner of man he is."

Hillis said he understood that leaders had virtually agreed on the plan to open the campaign at West Middlesex.

Governor Landon would go from there to Chautauque, N. Y., for another appearance. After a speech at either Buffalo or Rochester, N. Y., the presidential nominee then would make a swing into the New England states, Hillis said.

Governor Landon then would return to the west for a tour. R. B. Greager, Texas national committeeman, discussed with newsmen the part that Sen. William E. Borah of Idaho might play in the campaign. "I expect Senator Borah to come along with us," he said. "There is no other place for him to go. He cannot conceivably support the New Deal."

The Texas committeeman said, however, he had no direct or indirect word from Senator Borah what the Idahoan's course would be.

BLANDING SLOAN IS MADE DIRECTOR OF TEXAS CAVALCADE

FORMER CORSICANAN ELE-
VATED TO TOP COMMAND
OF STAGE SPECTACLE

Blanding Sloan, so not Mrs. A. C. Sloan, formerly of Corsicana, who has acted as technical director of the "Cavalcade of Texas" at the Centennial, has been made actual stage director of the stage production. Wednesday morning's Dallas News printed a picture of Mr. Sloan and a story about the "Cavalcade".

According to the News' story, Mark L. Hamilton was the original director of the spectacle and is still credited with the basic show although his work was formally terminated at a protest meeting on the stage when supervision was changed. Mr. Sloan was imported from Hollywood as technical director, but has replaced Mr. Hamilton as actual stage director.

A. L. Vollman, director of special events, is supervisor, and Clinton Bolton has linked the sequences with a narration. Much of the original script of Jan. 15, 1935, has been retained with several spectacular scenes added.

The "Cavalcade" will open at 8:30 Saturday night at a large indoor arena, and will be followed by W. A. Webb, general manager of the exposition. The production is rapidly assuming final form and the exposition management believes it will prove to be one of the most impressive assets on the grounds.

The production will enter its regular schedule Sunday with two performances daily, at 8 and 10 p. m.

Mr. Sloan is famous for his etchings, and especially for his unique lighting and stage settings for Broadway and Hollywood productions. He has visited numerous times in Corsicana where he has a host of friends.

Because of the refreshing relief it has brought them, thousands of men and women, who could afford much more expensive laxatives, use Black-Draught when needed. I have taken it for constipation and the dull feelings that follow, and have found it very satisfactory.

BLACK-DRAUGHT

THE BONUS

(An Editorial)

Over two billion dollars have been distributed by the federal government to the veterans of the World War. Corsicana and Navarro county veterans received something over eight hundred thousand dollars.

The former soldiers rightfully deserve this cash recognition for their services and it is their privilege to spend it as they see fit.

However, the average veteran is now well over the forty-year mark in age and he has been through one of the worst economic depressions in the history of the United States.

As a man grows older his views change and he comes to realize his responsibilities. We are of the opinion the average veteran will spend his bonus money wisely.

Naturally, the first thing that comes to mind of the veteran will be to liquidate his obligations. To the merchants or persons who have seen fit to extend credit and be liberal with charge accounts—to these will go a large per cent of the bonus money.

In fact, government economists figure that \$623,615,793 or 31.36 per cent of the grand total will be used by the veterans in paying debts. Possibly the percentage will be even greater for no man desires to owe money. The average veteran is appreciative of past favors and to show his appreciation he will immediately cancel his financial obligations as far as possible.

Using the government figures for the \$800,000 distributed in Navarro county over a quarter million dollars will be used to pay old debts.

As we have stated previously the average veteran is now a mature citizen, realizes his responsibilities to his family, and his community, and can be depended on to do the right thing. He needs no advice on how to spend this money—it is his—he earned it at a big cost and much personal sacrifice.

Congratulations to the Corsicana and Navarro county veterans of the World War—may you live long and continue to prosper.

William Powell In Ex-Mrs. Bradford At Palace Sunday

Something entirely new in murder brings William Powell to the screen as an amateur crime-solver again in his new starring picture, "The Ex-Mrs. Bradford," in which Jean Arthur is co-starred with Powell for the first time. This RKO Radio film draws romantic comedy and exciting physical action from their pursuit of a killer whose weird method of slaying is hinted at only by a dab of gelatine on his victim's body. The first time the murderer strikes, a jockey riding an "odds on" favorite falls dead during a race. The second time he strikes he leaves evidence that makes Powell look so guilty that the star has to solve the mystery to prove his own innocence. The picture opens Sunday at the Palace theatre.

BLACKSHEAR GETS THIRD CHANCE FOR ESCAPING DEATH

APPEALS COURT GROWS
WRATHY AT ALLEGED THIRD
DEGREE METHODS USED

AUSTIN, June 17.—(P)—Barney Blackshear, young oil field worker accused of murder in the deaths of Mr. and Mrs. George Brimberry near Arp March 21, 1932, escaped death for the third time today when the court of criminal appeals reversed his latest conviction in Harrison county.

Blackshear three times had been assessed the death penalty and the two previous convictions had been reversed.

The court sharply criticized methods used by officers in obtaining a purported confession from the defendant. The opinion said it was admitted that Blackshear was incarcerated in a dark cell for approximately six days and nights.

Judge F. L. Hawkins, who wrote the opinion, quoted as follows in another case:

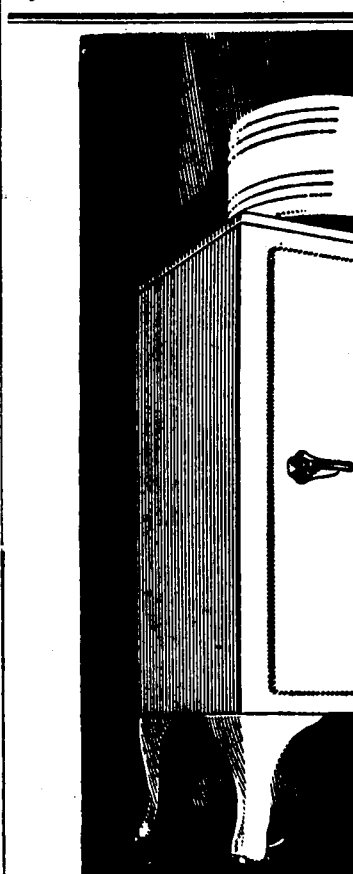

"Neither policemen, detectives nor jailers are clothed in this country with inquisitorial powers. It is true that some of the laws of Spain have been ingrafted on ours, but not the dungeon, the budgeon, the burning faggot or any of the concomitant tortures of the Inquisition. These belong to the ages of bigotry, intolerance and superstition and have no place in our civilization. An attempt to revive them, even in mild form, would be to call forth execration of the people and the severest condemnation of the law."

Texan Burned to Death In Crash Of Naval Plane

NORFOLK, Va., June 17.—(P)—Lieutenant Charles K. Mallory, 27, of Bethesda, Md., and Radioman W. C. Gray of Wharton, Texas, were burned to death today when their plane crashed from 100 feet shortly after taking off from the naval air station. The men and the plane were attached to the heavy cruiser Indianapolis. The plane apparently stalled. It burst into flames upon striking the water and the men were dead before aid could reach them. They had been engaged in starting tests. An investigation will be made during the day.

Large Number Cotton Subsidy Checks Have Been Received Mexia

MEXIA, June 17.—(Spl.)—A total of 1147 cotton subsidy checks have been received in Freestone county, according to J. W. Richards, Jr., Fairfield, county agent of that county. The checks represent the difference between the price the farmer sold cotton for and 12 cents per pound. Fifty per cent of the farmers of Freestone county have signed work sheets for the new soil conservation program. Mr. Richards said. Signers number 1200. A large number of 4-H club boys will go to encampment June 26 and 27, Mr. Richards says.

COMPANY

ORIGIN OF LONE STAR FLAG; JOHANNA TROUTMAN, GEORGIAN, WAS BETSY ROSS FOR TEXAS

MONTELL, June 17.—(P)—The origin of the Lone Star flag of Texas is less well known than the design of the stars and stripes but Miss Johanna Troutman of Georgia was the Betsy Ross of the second republic north of the Rio Grande. She made the Texas banner from a silk dress and gave it to those Georgia soldiers who went to Fannin's aid at Goliad. The Atlanta Journal of September 20, 1931, printed this bit of early Texas history in regarding it.

"It was early in November, 1835, that news reached Georgia that the province of Texas was chafing under the tyranny of Santa Anna, the Mexican leader. A public meeting was held in Macon November 12th, at which more than \$3,000.00 in money was raised and plans made to organize a company of soldiers to go to Texas and help her in the fight for freedom.

"As plans were being made for the march to Texas by the Georgia soldiers, a seventeen-year-old girl realized the company would need a flag, so this thoughtful and patriotic citizen, Johanna Troutman, at Knoxville, which was on the coast line twenty-five miles west of Macon, took one of her silk skirts, designed and made with her own hands, the Lone Star flag.

"On each side of the flag, in the center, was placed a large azure star of five points. Above the star on one side was the inscription, LIBERTY OR DEATH, and on the other, the Latin motto, Ubi Libertas Habitat Ibi Patria Est—Where Liberty Dwells, There Is My Country."

When Georgian volunteers began their march to Texas from Macon, their first stop was at Knoxville, and upon the steps of the Troutman Inn Miss Troutman presented the flag to Col. William Ward, in command, to be delivered to Lieutenant Hugh McLeod, who had gone ahead to organize a company.

McLeod acknowledged the gift in the following letter.

"Miss Troutman: Colonel Ward brought your handsome and appropriate flag as a present to the Georgia Volunteers in the cause of 'Texas and Liberty.' I was fearful from the shortness of the time that you would not be able to finish it as tastefully as you wish, but I assure you without emotion of flattery, that it is beautiful and with us its value is enhanced by the recollection of the donor. I thank you for the honor of being made the medium of presentation to the Company. If they are what every true Georgian ought to be, your flag shall wave over fields of victory in defiance of despotism. I hope that proud day will soon arrive, and while your star presides, none can doubt our success.

"Very respectfully your friend,
"HUGH McLEOD."
With this flag as their standard 150 Georgians proceeded from Georgia to Texas, arriving January, 1836. The volunteers were

under the leadership of William Ward, as colonel and Hugh McLeod as lieutenant.

The flag was first raised on Texas soil at Velasco, January 8, 1836, on the "Liberty Pole" in front of the American Hotel. Upon the occasion of unfurling the flag, a poem was composed and dedicated to Miss Troutman, one verse of which was:

"And now this banner is unfurled
By Georgia's sons in stranger
land.
Breathes there a man in this
wide world
Who could wrest it from a Georgian's hand?
Madden it ne'er shall be disgraced
By those to whom thou didst intrust
It's destiny—but be replaced.
In their fair hands, bright as at first."

At Velasco, the Georgia men were formed into a battalion of five companies and later organized into a regiment with James W. Fannin, colonel, and William Ward, lieutenant-colonel. The regiment was stationed at Fort Goliad and March 8 news was received from Washington, on the

Brazos river, then the capitol of Texas, that the Independence convention had formally declared Texas a free and independent republic.

When this thrilling news arrived the Georgia flag was raised and was saluted by patriotic music of fife and drum throughout the day. It is said that at sunset, when an attempt to lower the colors was made, by some mishap, the flag became entangled in the halcyons and, as far as known, the Troutman flag was thus utterly destroyed.

TWO-WAY DRUG EVIL

In a heart-to-heart talk at a meeting of the Opium Advisory Committee of the League of Nations, a British authority told the Japanese delegates that Great Britain had learned from its former drug traffic in China. That selfish exploitation of the Chinese cost the British a great deal in lost Chinese good will and confidence. Japanese drug traffickers are now doing what British subjects did formerly. Lyall warns them: "If the Chinese people become convinced that Japan is chiefly to blame for all the lives wrecked by heroin, the amount of hatred engendered may last for generations."

Nations, like individuals, learn more surely from their own bitter experience than the experience of others. Japan may co-operate in the League's efforts to end the illicit drug traffic, or may let its merchants go ahead—to the immediate harm of China and later peril to Japan.

FREIGHT TRAIN REFORM

Without ballyhoo the freight train has been modernized. The public has been so interested in swift, streamlined passenger trains that it has overlooked this improvement. Freight trains have gained one-third in average speed in the last ten years. The cars that carry fresh fruits and vegetables to populous centers are of insulated steel with up-to-date mechanical refrigerating units and greatly increased loading capacity.

The hopper cars for such perishables as cement and phosphates have water-tight metal covers. There are improved facilities for loading and unloading. Electric locomotives, drawing whatever power they need from overhead lines, are able to maintain the same speed on up grades as on the level.

With all this progress, it seems only fair for crack freight trains to have names, like the crack passenger trains, and run on regular schedule instead of dodging from siding to siding to let flyers roar past.

Here is new reason for motorists to restrain their urge to beat freight trains to crossings. In the first place, they won't have to wait so long for freights to pass. In the second place, the trains are worth waiting to look at.

ENGLISH TAX WOES

It is disillusioning to learn that Great Britain, too, is in a tax muddle. Americans have known that British citizens are heavily taxed—far more heavily, in fact, than we are. But there has been a tradition of British governmental efficiency that would seem to imply simplicity and clarity in the tax system.

Far from it! It develops that a committee of lawyers and skilled accountants have been wrestling for more than eight years to make the English income tax laws intelligible. Coming out of a recent huddle, they made public a report recommending a "codifying bill" with eight schedules and 417 provisions and 350 pages of explanations.

Clarification is obviously needed at Washington. But it would be sad to wait eight years for it, and then in the end be rewarded with a masterpiece like this.

The Chinese control speeding very simply, by putting bumps in the road.

JUST FOLKS

(Copyright, 1935, Edgar A. Guest.)

THE IN-BETWEEN AGE

Sometimes Miss Janet walks with pride
A step of stateliness and grace,
All signs of childhood put aside.
She then assumes a woman's place.
No grown-up could more graciously
be;
No queen could better wear her gown.
You'd swear that she was twenty-three
To see her on her way to town.

Sometimes she'll tint those lovely lips
With just the faintest trace of red,
And likewise, too, her finger tips.
Just like her mother, be it said.
Though scarcely in her teens she plays
The lady with such quiet charm
There's not a sign of childhood days
As we go walking, arm in arm.

I think we have a child no more.
Then Janet suddenly reverts
And done with poise she swings
the door
To race the street with flying skirts.
All legs and arms she seems to be
At which her mother starts to fret.
But I reply: "Okay with me!
We haven't lost our baby yet!"

A TREE'S RIGHT TO LIVE

Woodmen spared a tree in New York state recently because a private citizen believes that a 200-year old maple is of greater value than a new road. The tree is eighty feet tall, more than four feet in diameter and thirteen feet in circumference. Its branches spread sixty feet.

The tree stood directly in the middle of a proposed new highway, mapped by surveyors as the most practical route between Maine, N. Y., and Whitney Point. The owner of the property had experts examine the tree. They decided it could live another 150 years if protected. The tree-lover then took his case to the highway committee and state engineers and fought for the tree until they agreed to save it. That section of the road will be re-routed.

Mechanical progress, the tree's defender maintained, surely did not demand the destruction of beauty. There is progress in the official acceptance of that attitude.

FOREIGN ENGINEERING

Not all the industrial development and technical knowledge are in America, even if we do lead the procession. Dr. William Mather Lewis, president of Lafayette College, tells the American Society of Mechanical Engineers:

"There are amazingly important developments throughout Europe in housing, transportation, communication and other engineering projects, concerning which first hand information is invaluable. Whether the engineer is to be a small cog in the industrial machine, or a dominating element, depends in great measure on his breadth of vision in regard to education."

He urges young engineers therefore to visit Europe and see what they're doing over there. Europe is decadent in many ways, but Americans can still learn something from it. Intelligent travel and observation are as valuable a part of education as anything else.

BOOM AND IDLENESS

The steel region of the Mahoning Valley, midway between Pittsburgh and Cleveland, has reached what might almost be called a boom. The Youngstown Sheet and Tube Company has more men on its payroll than it had in 1929. In Warren and Niles it is growing harder to find skilled tin plate or sheet mill workers. There is an actual labor shortage developing, and in some departments men are working more than 40 hours a week.

Yet there are still thousands on relief. It is a strangely contradictory situation.

It takes four or five years ordinarily to train skilled men in the open hearth and rolling mill departments. Apprentices are hired in considerable numbers, among them many graduates starting with the pay of common laborers. It will be some time before they take the skilled jobs. There is even a shortage of common labor of some kinds. On the other hand, common labor of the ordinary sort is not

PUBLIC DICTATOR NO. 1

—By Clive Weed

**LITERARY LIFTS**

Another young fellow gets into trouble by plagiarism. This time it isn't done in a prize competition, like the essay-lifting feat of the western high school student. It's a case of selling another man's story.

An eighteen-year-old lad in Buffalo marketed a story with the American Magazine for \$300. He was paid and the story was printed. Then it developed that the yarn had been taken bodily from a 1922 number of the Red Book. The pretended author had merely changed the title. Now he is in trouble with the federal department of justice.

Can he plead, like the high school boy, that he "didn't know there was anything wrong about it?" And will there be, as in the previous case, a lot of sentimental people with misty morality rushing forward to pat the poor fellow on the back, and weep over the fix he has got into and the way society misunderstands him?

Stealing is stealing, whether the stolen goods are money or literature. The virtues of honesty, fair dealing, good faith, have not been repealed by the depression or the machine age. If they are allowed to lapse, whether through sentimentality or indifference, society crumbles.

Modern statesmanship: Nations, driven by poverty and increasing unemployment, plunge into war for relief, then try to get the war paid for, then are driven by poverty and increasing unemployment to plunge into another war for relief—so on.

You can't keep the British people down. They are feeling cocky again because they have got their public debt reduced to only three times as much as ours per capita.

An economist, plotting a curve, might discern a point in time where half this country's wealth will be tied up in stamp collections.

It's all in the point of view. Girls now get self-conscious when they put on anything more than shorts.

adapted for work in the most modern mills. Apparently there will still be a large amount of unemployment no matter how much steel production grows. And similar problems seem to exist in other industries. Our industrial system in many ways remains curiously out of joint.

PRESENT OLD AGE PENSION SETUP IS ATTACKED BY HUNTER

GREENVILLE, June 18.—(AP)—Texas' old age pension plan, as administered under the present state administration, was under fire from a second source today.

Tom F. Hunter of Wichita Falls, aspirant for the governorship, last night advanced a plan to tax gross incomes of more than \$6,000 to provide pension revenue. He asserted the present setup was "neither adequate nor efficient."

"Nearly \$500,000 has been spent by the old age assistance bureau created by Allied and not a penny has been paid to the old people," he said. "I propose a gross income tax of not more than one per cent on all gross incomes in excess of \$6,000 a year."

This tax, he said, would fall heaviest on natural resources, "the exploiters of which are best able to pay."

The pension plan previously had been subject to attack in gubernatorial campaign speeches by F. W. Fischer, Tyler. Fischer proposed a tax on natural resources.

ACCIDENT VICTIM WILL BE BURIED AT BAZETTE TUESDAY

KERENS, June 18.—(AP)—F. H. Massey, Jr., aged 32, was instantly killed in an automobile accident on Highway 31 about seven miles west of Tyler at an early hour Monday morning. He had visited his parents at Bazette, and was returning to Tyler alone. Indications at the scene of the wreck were that the car went out of control going down a curved hill and plunged into a bridge railing, throwing the driver through the door into the creek below.

The body was taken in charge by a Tyler undertaker and later brought to Kerens by F. N. Stockton of this place, under whose direction funeral services are to be held at the Bazette Methodist church at 5 o'clock Tuesday afternoon. Services will be conducted by Rev. R. E. Heiser of Bazette, assisted by Rev. Bernard McCord of Pioneer and Rev. C. E. Wilkins of Kerens.

Funeralbearers are Lester Shelton, Tillman Reed, Clarence H. Massey, C. L. Tillman, Jr., Jack Reed, Rufus Massey.

Mr. Massey is survived by his wife, parents, Mr. and Mrs. Frank Massey of Bazette; six sisters, Mrs. H. P. McCown, Mrs. T. M. Shelton, Jr. of Kerens, Mrs. Hubert Ferguson of Corsicana; Misses Atwood, Lorraine and Mary Jane Massey of Bazette, and numerous other relatives.

MEMBERS INDICTING GRAND JURY SCORE ABANDONMENT CASES

U. S. ATTORNEY GENERAL ALLEGED HAVE QUIT PROSE- CUTION LONG FRIENDS

NEW ORLEANS, June 18.—(P)—Nine members of the grand jury which indicted friends of the late Senator Huey P. Long for income tax fraud today scored the United States attorney general abandoning prosecution of the cases.

In a letter to Attorney General Homer Cummings, the jurors demanded immediate release from the Atlanta penitentiary of former State Representative Joseph Fisher, one of the two men tried before the criminal cases against others were dropped.

They said there was a "gross and unwarranted official discrimination against Fisher, who is scheduled to complete a sentence of a year and a half on July 9. Abraham Shushan, former president of the New Orleans levee board, the other man brought to trial, was acquitted.

Fisher was tried before the death of Long at the time Long was waging a vigorous fight against the administration of President Roosevelt. Shushan was tried after Long's death.

The statement was announced here by Arthur C. Waters, who served as foreman of the grand jury which returned the income tax indictments.

Rumors Current. The jurors, in their letters said that during the investigations which led to the indictments it was reported that those under investigation "were trying to make their peace at Washington, by political pull or by payment of the taxes claimed, or even by both means."

The reported answers out of Washington, the letter stated, "either from your office, Mr. Attorney general, or from the office of the secretary of the treasury, were in effect that the government of the United States was not compromising itself by condoning the commission of crime for a pecuniary consideration—answers which wholly comported with the dignity and honor of the United States."

The jurors said that, excluding Fisher and Shushan, the others indicted "had not even been brought to nominal trial" and if the cases are abandoned they felt they had "every cause to feel aggrieved and outraged."

Evidence Revealed. "If the evidence revealed in the grand jury room under the guidance of the assistants of the United States attorney general's office was sufficient to indict, then we fail to understand under what proper theory consistent with the integrity and sacredness of the proper administration of justice how this identical evidence has now so weakened as to warrant the dismissal of criminal charges."

"The newspapers seem to say that you, Mr. Attorney General, have given a free hand in these matters to the local United States attorney (Rene A. Viosca), and we realize that you must, in the exercise of your duties, rely in large measure upon others. But it is significant that these same press reports uniformly give emphasis to the statement that the department of the secretary of the treasury strongly disapproves."

District Attorney Viosca, when criminal prosecutions were dropped in the remaining cases, said they were too "weak" to bring to trial and added that there was a "changed atmosphere" in New Orleans since the conviction of Fisher.

Changed Atmosphere. The jurors said a "changed atmosphere" could not mean "a change in the wish of the law-abiding people of New Orleans to see that crime is punished."

"If that statement as to the 'changed atmosphere' were limited to official circles, we would readily agree," they said.

The letter was signed by nine of the 23 grand jurors who considered the tax cases for nine months, beginning in May, 1934. Among those who escaped criminal trial were Seymour Weiss, hotel executive, and former treasurer of Long's political organization; State Senator Jules C. Fisher of Jefferson Parish; and the Nelson brothers, Harry, John P. and W. W. Nelson, who sold materials to the state during Long's gigantic highway paving program.

Although the government dropped criminal prosecutions in their cases, announcement was made that an attempt would be made to collect the amount of income taxes allegedly due.

Recently Married Couple Drown In Rescue Attempt

HUMBLE, June 18.—(P)—The waters of the San Jacinto river near here last night gave up the bodies of a young married couple who drowned in trying to save the man's 8-year-old sister, who was rescued.

The victims were Mr. and Mrs. Charlie Lawhorn of Humble, who were married last October. They perished attempting to rescue Miss Mona Dell Lawhorn, who was later dragged from the river by another member of the swimming party, Miss Mildred Adams, 18.

FLOGGING

(Continued From Page One) If Frank Weems, negro share-cropper, had been fatally beaten in a cotton strike fight, Sheriff Curdin said yesterday that his only knowledge of the reported flogging was from information in newspapers and investigation had convinced Weems was not dead and could be found in a short time. Governor J. Marion Futrell of Arkansas joined the sheriff in accusing the T. T. U. of reporting Weems' death and planning a public funeral as a propaganda hoax.

HOW MUCH IS EIGHT HUNDRED THOUSAND DOLLARS; QUESTION ON MINDS OF MANY THIS WEEK

How much is eight hundred thousand dollars? This question is in the minds of many this week as that amount of money or its equivalent in government "baby" bonds is being distributed to 1,600 Navarro county World War veterans.

A silver dollar has a diameter of 1 1/2 inches. If the \$819,200 received in Navarro county were laid side-by-side they would reach 19 1/2 miles, or from Corsicana almost to the city limits of Ennis on highway 75. They would reach 1,228,800 inches or 102,400 feet.

More Distance. If the \$819,200 were converted into dollar bills, which are a little over six inches long, the bills laid end to end would reach 4,315,200 inches or 409,600 feet, or a distance of 77 3/4 miles. Placed end-to-end on Highway 75 the dollar bills would reach past Dallas and nearly to Denton. On Highway 75 south of Corsicana, they would extend nearly to Madisonville, about Highway 31, considerably past Tyler. West on Highway 31, they would stretch a great distance past Waco, and nearly to Temple.

A dollar bill has an area of 15 square inches. If the \$819,200 were converted into dollar bills and they were placed side-by-side like a brick pavement, they would cover an area of 12,228,000 square inches, or 85,333 square feet. This pavement of dollar bills would cover 1.9 acres of ground. A city block contains 90,000 square feet. Therefore, all the bills received by Navarro county veterans would lack only a few square feet of blanketing a square city block.

The payment of the bonus released two billion dollars, or its equivalent in bonds.

If this was turned into silver

dollars, and 1 1/2 inches was allowed for each silver dollar, then the two billion dollars laid side by side would reach twice around the world.

Many Get Bonds. Assistant Postmaster Hugh Loper reported at 11 o'clock Tuesday that bonds had been given 500 veterans.

The post office registry windows opened at 5:30 yesterday afternoon, and by 9:30, closing time, 481 veterans had been handed their bonds. At 11 o'clock Tuesday, 22 had been given out, and 111 series of bonds were still unclaimed.

Mr. Loper said the post office had received 638 series of bonds, and expects to receive about 100 more.

The bonds for Navarro county were being cleared through the post office in the county, he said.

They will be given veterans calling at the registry windows during the regular hours hereafter, but the windows will be closed at 6 o'clock as usual.

Assisted By Legion. Four members of the regular post office force were assisted last night by four members of the American Legion, H. G. Gordon, M. K. Riley, Ray Morgan and L. V. Major, in identifying the veterans calling for their bonds.

The civil service room opened at 8 o'clock Tuesday morning, and will stay open until 5 o'clock tonight when the veterans desiring to cash their bonds immediately may bring them to have them certified, and sent to the Dallas post office, from which the checks will be mailed directly to the veterans.

Four post office employees are assisting in the personal certification of the bonds in the civil service room.

Members of the labor party cried ironically: "Stand firm!"

Ambassador Dino Grandi of Italy sat in the diplomatic gallery and heard the foreign secretary's speech, which was instantly interrupted by members on the floor.

Eden flushed under the barrage of heckling and once retorted angrily: "The honorable members are making cheap gibes."

Over the storm, Eden declared: "We have to admit that the purpose for which sanctions were imposed has not been realized."

He added he considered the situation in Ethiopia one "which nothing but military action from the country could possibly reverse."

Would Mean War. Then Eden demanded: "Is there any country, is there any section of opinion in this country which is prepared to take such military action?"

"If the league means to enforce an Ethiopian peace which the league can rightly approve, then the league must take action of the kind which must inevitably lead to war in the Mediterranean—and no man can say such a war can be confined to the Mediterranean."

"I have no reason to think the league favors such a departure from such action, and no reason to suppose this country, on which the greatest burden of such a war must fall, desires it either."

Eden announced Britain's Mediterranean precautions could be continued to "cover the period of uncertainty which must necessarily follow the termination of sanctions."

Mediterranean Fleet. As a result of recent experience, he said, Britain is determined that it has become necessary to maintain permanently in the Mediterranean a "defensive position stronger than that which existed before this dispute began."

For ten minutes, the foreign secretary's carefully chosen sentences were interrupted by "bulent scenes between laborites and conservatives."

Eden flushed under the barrage of heckling and once retorted angrily: "The honorable members are making cheap gibes."

Over the storm, Eden declared: "We have to admit that the purpose for which sanctions were imposed has not been realized."

He added he considered the situation in Ethiopia one "which nothing but military action from the country could possibly reverse."

Would Mean War. Then Eden demanded: "Is there any country, is there any section of opinion in this country which is prepared to take such military action?"

OFFICIALS VISIT HERE CONNECTION PAYMENT PENSION EVERY EFFORT BE MADE TO EXPEDITE CHECKS MOST NEEDY FIRST

Two members of the Texas Old Age Assistance Commission, Judge A. W. Cunningham, chairman, and W. O. Davis, spent Tuesday night and Wednesday morning in Corsicana on a tour of East-Central and East Texas counties on official business.

The officials were quoted as saying that the commission was trying to see that every person over 65 years of age who are American citizens, either native or naturalized, now on relief rolls, in a position to receive the old age assistance checks will be cared for immediately after July 1 in order that the burden of caring for those can be taken from the respective counties since the state and federal governments have stopped the relief checks.

Most Needy First.

It was stated that the most needy would be taken care of first and then the others as soon as possible. It was stressed, however, that those entitled to the old age assistance checks who do not get their money immediately after July 1 will get their vouchers later, but will include the amount from July 1 in other words a person not getting a check until August will get two months' assistance at that time.

The constitutional amendment voted by the people of Texas last August authorized the legislature to provide aid only for the needy over 65 years of age and not to all persons who have reached the age of 65, regardless of their financial condition. The legislation passed by the legislature followed the constitutional amendment, it was pointed out, as voted by the people of Texas.

State Pays \$15.

The official ballot voted by Texas last August was for or against the amendment giving the legislature the power to provide a system of old age assistance not to exceed \$15 per month per person and to accept from the government of the United States financial aid for the old age assistance.

Those entitled to the aid will be given assistance according to their needs and conditions, it has been repeatedly pointed out by representatives of this department of the state government.

DEPARTMENT JUSTICE PROBE OF FLOGGING APPEARED CERTAIN

BEATING OF MINISTER AND WOMAN IN ARKANSAS COT- TON STRIKE AREA

MEMPHIS, Tenn., June 17.—(AP)—A United States department of justice investigation of the alleged flogging of a Presbyterian minister and a young woman in the eastern Arkansas sharecropper strike zone appeared in the making today.

At the same time one of the alleged victims, the Rev. Claude Williams, a Little Rock, Ark., preacher, urged prosecution of six men he said abducted and beat him and Miss Willie Sue Blagden with a brass studded leather strap near Earle, Ark., Monday night.

The clergyman and Miss Blagden, a 29-year-old social worker, reported they had gone to Earle to investigate the rumored slaying of a negro sharecropper.

On advice of counsel for the Southern Tenant Farmers Union which is sponsoring the strike in three eastern Arkansas counties, they decided not to return to Earle to lodge formal complaints, pending a conference of attorneys Friday.

In New York, Norman Thomas, the socialist leader, who had appealed to President Roosevelt for an investigation of the asserted attack, announced receipt of a telegram from Marvin H. McIntyre, secretary to the president, stating the "attorney general has been asked to investigate immediately and report."

Mr. Williams said Miss Blagden expressed belief they could identify their alleged assailants, although not by name.

Roy Morelock, 35, a Parkin, Ark., sharecropper, reported yesterday he was the victim of another flogging near Earle Monday.

Thompson himself called attention to the continued drilling of wells in all Texas fields with a resulting boost in the production.

A little later V. E. Cottingham, chief petroleum engineer for the commission, reported that in the last 30 days bottomhole pressure in the big East Texas field had dropped 7.58 pounds per square inch to 1,182.4 pounds on June 12 and recommended a reduction in allowable.

"It is very apparent that it may be necessary to cut the state's allowable," Boile said. "In the North Texas district, there are about 35,000 wells, and the per well allowable is very low. In fact, because most of the wells come under the marginal well allowance, a few other wells must take the reduction."

"Nevertheless, Texas should lead the way in taking a reduction and I believe other oil producing states will follow suit. I implore the commission to keep Texas' allowable in line with the bureau of mines estimate."

Many New Wells.

After announcing the bureau of mines estimate and making comparisons, Thompson said the allowable production for the state on June 5 was 1,184,556 barrels daily, which represented an increase of 43,206 barrels above the allowable set in the last general proration order May 20.

"Wells are being drilled in virtually every Texas field, he said. 'New wells mean new production. I think this ought to be called to your attention.'"

Charles E. Houston, attorney for the Pure Oil Company, asked if it was not true that actual production usually ran considerably behind the allowable figures, and Thompson agreed in the present comparisons.

Much Pressure Lost.

Cottingham testified that in the period during which the East Texas pressure dropped a total of 3,666,393 barrels of oil was produced, or an average of 439,833 barrels daily. The pressure decline averaged .558 pound per 1,000,000 barrels of oil produced, he said.

"How can the pressure decline be checked?" asked Thompson.

"By decreasing production," Cottingham replied. "And I recommend quite a decrease in East Texas to build up the pressure."

"Can the pressure drop be stopped?" Thompson queried again.

"It can," Cottingham said.

The engineer then gave technical testimony to show a close relationship between pressures and production.

For the first time in several months, hot oil was brought to the attention of the commission at a hearing with a declaration of R. E. Hardwick, Port Worth attorney, of intention to introduce testimony relative to "hot oil coming into this state."

"Hot Oil" Mentioned.

"I am convinced that the commission can pass regulations, if it has none at present, which will handle any situation," said Hardwick, who represents a number of major oil companies.

The commission granted a request of Senator Tom Daberry of Bogata, that a hearing on the Taio field be held in Paris July 15. A previous scheduled hearing had been postponed.

Reports on conditions in various fields included one by Fannin handle operators that stores in the area was being "constantly reduced."

The hearing was held before the full commission, members in addition to Thompson being C. V. Terrell and Leon Smith.

Cottingham subsequently recommended specifically that the allowable of East Texas be reduced from 439,833 barrels daily to 425,000.

John Boyle of San Antonio, representing Southwest Texas operators, told the commission it was obvious a reduction in allowable would be to the best interest of the state and said his area would accept a cut without protest if it was evenly spread.

Storage Is Increasing.

Thompson announced that storage in Texas had been increasing for recent months, on May 1 being 109,766,383 barrels compared with 105,000,000 barrels in February.

Since the last year he said 770 new wells had been drilled in Texas of which only 250 were in East Texas.

Supporting his declaration with reference to hot oil, Hardwick put witnesses on the stand who testified as to regulations of the commission.

C. F. Sullivan, engineer of the commission, testified the commission now had no special rule governing the movement into Texas of oil produced in viola-

OLD AGE PENSION CHECKS BE PLACED IN MAILS JUNE 30

FIRST PAYMENTS UNDER TEXAS SOCIAL SECURITY LAW REACH THOUSANDS

By HARRELL E. LEE,
Associated Press Staff Writer.

AUSTIN, June 17.—(AP)—Late next week, a machine in the busy headquarters of the state old age pension organization will start turning out checks at the rate of around 10,000 a day.

One week from next Tuesday, these checks will be placed in the mails and Texas will have joined the long list of states which pension their needy aged.

Many who are eligible will not receive any money on July 1. A start will be made, however, on the deadline fixed by the legislature and the needy persons whose petitions for aid are pending at that date will receive payments retroactive to July 1, after their applications have been approved.

Orville S. Carpenter, director of the old age assistance commission estimated today that 35,000 to 40,000 persons would be on the pension rolls by July 1. Forces here and in the 20 district offices are working night and day in an effort to clear as many applications as possible before that date.

Approximately 30,000 additional applicants will be found eligible with completion of investigations, Carpenter believes.

"Not ashamed of our record so far," Carpenter said. "It was impossible to make a careful examination of each application and at the same time complete all investigations by July 1. I believe the people of Texas approve our policy of investigating thoroughly to determine which of the applicants are in need and the extent of that need."

"We have been giving prior consideration to those who appear to need aid the most. Of the 28,500 applicants approved through yesterday, at least 90 per cent were on relief. We regret that some of the old people will be a few weeks late in getting their pensions but they will receive as much money as though their applications already had been approved."

May Run Higher.

While Carpenter estimated that the number of Texans eligible for pensions was around 65,000, about 35 per cent of the applications, he admitted that later reports of investigators might revise the estimate upward. Thus far, approvals have outnumbered rejections about three to one but Carpenter attributed that to the fact that the organization was

tion of conservation laws in other states.

Hardwick said it might be necessary for the commission to confer with the attorney general's department to run out legal questions.

P. P. Gregory, chairman of the Yates Pool engineering committee said the gas-oil ratio in that field had increased since the allowable was cut May 20 from 38,500 to 35,000 barrels daily. Three fourths of 250 wells tested, he said, showed increased gas-oil ratios.

H. F. Montgomery of Houston requested the commission to correct what he termed discrimination in favor of the Corpus Christi fields as against the Webb and Duval county areas.

Because the Corpus Christi wells were nearly twice as deep as those in Webb and Duval counties, he admitted there should be a difference in allowable, but suggested the spread was too great.

Hearing on the Godsmith-Southern-Cummins pool in Ector county was postponed to July 3, and another on the O'Hearn field in Southwest Texas until next Thursday.

Thompson stated there was no "trouble" in the Rodessa field, on the Texas-Louisiana border. On the Texas side, he said, there were now 12 wells.

ACTION COMPLETED ON RELIEF MEASURE CONGRESS THURSDAY

LEAVES ONLY TAX BILL HIN- DERING ADJOURNMENT BY SATURDAY

WASHINGTON, June 18.—(AP)—Congress completed action today on the \$2,375,000,000 relief-deficiency appropriation bill and sent it to the White House.

Congressional action on the long-fought measure carrying \$1,425,000,000 for relief was completed when the senate agreed to elimination of its amendment for reviving the Florida ship canal.

The balance of the conference report on the big appropriation bill was approved by the senate with little debate.

Final action on the relief measure left only the tax bill standing in the way of congressional adjournment Saturday night.

OKLAHOMA FARMER SLAIN; YOUNG SON ADMITS SHOOTING

WALTERS, Okla., June 18.—(AP)—Grady Zachry, 42-year-old tenant farmer, died today of gunshot wounds and Floyd Jackson, Cotton County Attorney, puzzled over what to do with 15-year-old Clifton Zachry, who told Jackson yesterday he shot his father.

Jackson emerged from a conference with the widow and a 20-year old daughter, Lorraine and said.

"Both Mrs. Zachry and her daughter corroborated the boy's statement the father was mean to the family."

Jackson said any action would have to be taken in the juvenile court because of the boy's age.

Jackson said the boy told him he shot his father twice early yesterday with a .22-caliber gun as Zachry lay asleep at their tenant farm home 18-miles Southwest of here.

The county attorney said the boy related a story of mistreatment and a beating administered with a monkey wrench.

considering the neediest applicants first.

Some of those on the rolls will receive only a few dollars each month while others will receive the \$30 maximum. Carpenter said that since June 1 the organization had been sending out notices telling each applicant what he would receive and that so far none of them had complained.

Some persons will not be given the \$30 maximum even though they have no income and no property because the investigator decided that amount of cash was not necessary to meet their living expenses, the director explained.

Carpenter stated that the Texas old age pension law was the most liberal in the nation and that "under it, we likely will pay old age assistance to more people than any other state." He pointed out that the Texas statute did not permit refusal of applications on grounds that sons or daughters were able to support the applicants.

SENATOR FLETCHER OF FLORIDA DIED OF HEART ATTACK

DEATH COMES UNEXPECTEDLY WEDNESDAY; SECOND SENATOR TO DIE

WASHINGTON, June 17.—(AP)—Senator Duncan U. Fletcher, a member of the United States Senate from Florida during 27 of his 77 years, died suddenly today from a heart attack.

Informing of his passing, his saddened colleagues convened at noon.

President Roosevelt led official Washington in paying tribute to the Florida senator.

"The country has lost an able and conscientious servant in the death of Senator Fletcher," Mr. Roosevelt said.

"As chairman of the great committee on banking and currency throughout a period of unprecedented financial upheaval, his steady influence was reflected both in emergency and permanent legislation which rescued the entire banking structure of the country from utter collapse and destruction."

"Throughout a long and distinguished career in the senate he was ever actuated by motives of high patriotism and unselfish devotion to the public welfare. In his passing a fine and gallant gentleman goes from our midst."

Before recessing, the senate heard eulogies of Fletcher from Senator Robinson, the democratic leader, and Loftin, newly appointed member from Florida.

Fletcher had served in the senate since March 4, 1902.

His office announced that the senator had dropped dead at his home.

No details were given immediately.

Fletcher was chairman of the important banking and currency committee and a member of the committees on commerce, military affairs and printing.

Senator Borah of Idaho is the oldest member of the senate in point of service, having started his career in 1907.

Senator Smith of South Carolina came to the senate with Fletcher. They outranked all other democrats in point of service.

Senator Fletcher's term would have expired in 1939.

It was Florida's second loss in the senate in little more than a month. Park Trammell died May 8 after a service since 1917.

Trammell was succeeded by Scott M. Loftin, former president of the American Bar Association.

ADDIS ABABA

(Continued From Page One)

Marshall Pietro Badoglio must be fed, housed, and, if possible, entertained.

All three are difficult; the last, almost impossible. To add to other troubles are the rains, three or four hours of downpour every day.

Only one large store, that of Mohammed Ali, the chain store tycoon of Ethiopia, was saved. His establishment, resisted the marauding shifts whose "terror" left 800 dead natives, killed some 20 foreigners, most of them Greek and Armenian merchants, and cost damaged estimated at \$10,000,000.

Afterwards, all doubled his prices, but in three days his shelves were swept clean of general merchandise and foodstuffs by the crowds of civilians—who, guns in hand, had been snatching hurried bits four days—or by the weary soldiers.

Food In Demand.

Since Ali's 50-odd branches were destroyed, as well as his Harar and Direawa depots, there just wasn't any more.

Now, however, tiny Italian coffee shops have sprung up along the streets. Since there are herds and herds of cattle, there is meat aplenty. Swedish and German pensions, finding good somewhere, are crowded with Italian officers.

The three hotels left standing are jammed and the native market on the hill near Ali's store, is booming.

BODIES A. & M. Senior and Girl Found in River

COLLEGE STATION, June 17.

(AP)—The Brazos river today had given up the bodies of Dawn Holick, 7, of Bryan and D. G. Cox, A. and M. senior of Wichita Falls, who drowned near Wellborn Sunday.

Volunteer workers had dragged the river since the tragedy, and yesterday blasted deep holes in the stream's bottom thinking the bodies might have lodged there.

The child's body was found late yesterday floating in driftwood four miles downstream from the point the girl drowned. Cox's body was located today near the spot where he sank.

Funeral services for the girl were held in Bryan today. Preparations were made to send the young man's body to Wichita Falls for burial.

KILLER ELEPHANT MUST DIE VERDICT OF SUPERIOR COURT

SAN FRANCISCO, June 18.—(P)—A temporary restraining order was dissolved in superior court today and "Wally," six-ton "killer" elephant, again was doomed to die before a police firing squad.

Attorneys interested in saving the elephant's life immediately announced, however, they would carry their case to the district court of appeals to stop today's scheduled execution.

Edmund Heller, zoo superintendent, the only witness at the hearing, testified the elephant killed its keeper, Edward Brown, 45, and was likely to kill other persons.

"In my opinion the elephant is a very serious menace to the lives of our keepers and perhaps to the public," Heller testified.

Heller announced that preparations for the execution later today would go forward.

THE FRIVOLOUS TOUCH.

FOR THE SOBER-MINDED. Today Miss Forbes suggests a few light touches to cheer up the appearance of the girl who goes too sober in her clothes, make-up and manner.

Are you one of those serious-looking women who long to seem very frothy, light-hearted, frivolous, in love with life, and being alive? This is the type that attracts others, as you know, but the naturally serious-minded may have difficulty in copying the mannerisms. As a matter of fact, however, you can easily manage a frivolous exterior.

How? Well, by E. R. Forbes. For instance, do you go about a lot of the time in a sober, dark business suit? Well, twist your neck some of the spotted veiling made for hats, the kind with spots in about six different gay colors. Fasten it with a gaudy clip, and your appearance will be transformed. If you can't find this, get some of the gayest polka-dot silk handkerchiefs you can find and try the same trick.

Then how's this for a dull silk dress, say, one of last year's that needs cheering up? Wear scarlet gloves with it, and stockings that have heels and toes woven in with the same color, and a spot of the same color repeated on your hat. Or a handbag to match. And there is the inevitable nosegay to go in a button-hole on a bleak-looking suit or coat. This year try one of miniature vegetables; they are newer and sillier and charming, and when you mix carrots, tomatoes and beans (as one I saw yesterday did), you'll have as gay a touch as you want.

If you want to look frivolous, make your hair more blonde with peroxide if you are fair and red-dish if it is a trifle with henna if you are brunette. You, the sober-minded, are one of the few types

who should wear scarlet finger nails—you are almost the only type that doesn't. Wear scarlet too, nails. Why not? They are certainly frivolous.

M. I. B.—When the hair is bleached, it is done at once, not gradually. If you do not know how to do this, it is well to have it done for you the first time, and then keep it up yourself if need be. You should always shampoo your hair before applying the bleach, and when the desired shade is obtained, shampoo again to remove all the bleaching fluids. This may be peroxide or a bleach of mixtures; in fact, anything that is used for this purpose. Bleached hair is given a permanent wave, but extra care is given to it when the work is done.

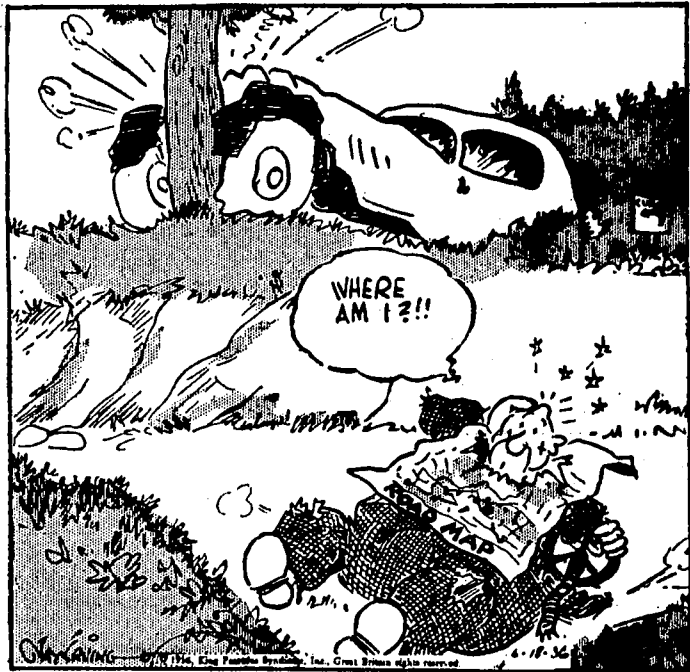

T. L. C.—The roughened state of the skin, sometimes called "gooseflesh," is caused by a nervous tension of the tissues directly under the skin. The only way to get rid of it is to get the blood circulating, and the pores and glands in the skin working fully. Hot salt baths, epsom salts baths, patting, massaging, in fact, any sort of bath that induces excessive perspiration, will tend to relax the skin, and therefore relieve this tension that is causing the trouble.

Mrs. G.—When a line comes on each side of the mouth it is usually caused by sagging of the facial muscles, particularly those of the cheeks. Building up firmness of all the facial muscles will rid the skin of these lines, so a general massage should be given, beginning with the throat and working upward over chin, mouth, cheeks, eyes, and forehead.

Justice Court. A white man, arrested by city officers for the alleged theft of milk from milk routes here recently, was fined \$25 and \$10 and costs on the third case by Judge Mr. Bryant Tuesday afternoon. The defendant was sent to the county jail to serve out his fines, a total of 20 days.

One was fined Tuesday afternoon by Judge Bryant on a charge of disturbing the peace.

Grains and Provisions

CHICAGO, June 18.—Displacing wheat leadership to some extent, corn came into greater prominence today, and December corn contracts advanced 1/2 cent to 1.01 1/2. Demand for the season. Dearth of moisture over most of the corn belt, together with the effect of the drought in the West, has stimulated the corn market. In some cases, corn futures closed more than 1 cent higher. The wheat market was also active, with the July 1937 wheat futures closing 1/2 cent higher at 1.01 1/2. The soybean market was also active, with the July 1937 soybean futures closing 1/2 cent higher at 1.01 1/2.

DEMOCRATS MAKING FINAL PREPARATION FOR BIG CONVENTION

REPUBLICANS PLAN FINANCIAL DRIVE TO PROVIDE CAMPAIGN FUNDS

WASHINGTON, June 17.—(AP)—The Democratic high command plunged today into final preparations for the party's national convention in Philadelphia next week, while Republicans turned to the task of raising money for the London-Knox drive.

The giant Democratic pow-wow in the Quaker City beginning June 22 was the subject of a conference yesterday between President Roosevelt and National Chairman James A. Farley. Mr. Roosevelt, declining any comment about the new Republican platform, told reporters that he has no plans to leave Washington until a week from Saturday, when he will go to Philadelphia to accept renomination in a big outdoor fete.

Topeka, Kansas, was the scene of a huddle between Gov. Alf M. Landon and Col. Frank Knox of Chicago, the team which will try to undo the "New Deal." In the governors' study they talked over plans to begin their big push "right now."

Later John D. M. Hamilton, new Republican national chairman, announced the party's new executive committee—"the youngest personnel we've ever had by far"—and then made ready to fly to New York today to discuss money raising. The new party treasurer is C. B. Goodspeed, retired steel executive of Chicago.

Other developments: Unofficial returns from Maine's primary contests for the governorship and seats in the national house of representatives indicated that four candidates endorsed either by Father Charles E. Coughlin or Townsend old age pension leaders had been defeated, while two so approved were nominated. One of the apparently defeated candidates sought a recount.

A tumultuous Democratic state convention in Indianapolis nominated Lieutenant Governor M. Clifford Townsend for governor. He was supported by Gov. Paul V. McNutt.

The Rev. Gerald Smith declared at Chicago that share the wealth, Townsend and Coughlin, as well as those of Rep. Lemke (R-ND) had formed a "loose working agreement" to swing "twenty million votes" against "Farleyism, dictatorship and communism."

Jubilant Over Primary Results
Republican leaders in Minnesota were jubilant over Monday's primaries, declaring that they had an incomplete tabulation that they would poll about 25,000 more votes than the now dominant Farmer-Labor party. Governor Floyd B. Olson won the Farmer-Labor nomination for the senate. The Republican nomination went to Representative Christianson. With returns still incomplete, Joseph Wolf, national Democratic campaign chairman, declared that his candidate, Patrick Delaney, had won the Democratic nomination.

In New York, Father Charles E. Coughlin talked of a possibility that an unidentified man would run for president as the nominee of a third party. He said the country would know by the end of this week whether this man would be considered for support by the National Union for Social Justice.

Idaho friends of Senator Borah, defeated for the Republican presidential nomination, started circulating petitions for his renomination to the senate. Borah, in Washington, did not comment.

Local Merchants To Observe July Fourth Holiday

Directors of the Corsicana Retail Merchants Association voted Tuesday to observe July 4 as a holiday as usual, despite the fact it came on Saturday. They also issued an appeal to all merchants of the city to demonstrate their true patriotism by closing their establishments as usual for the occasion.

Similar action has been taken by a number of other Texas towns, and special observances are being arranged.

No announcement has been made to date of any special program to be held in Corsicana to celebrate the holiday except for the opening of his campaign for re-election by United States Senator Morris Sheppard.

PROMINENT FARMER KILLED WHEN AUTO CRASHED OFF ROAD

W. T. (Buck) Griffin, aged 66 years, long-time resident of East Navarro county, prominent in farming and political circles, was instantly killed Tuesday night at 10 o'clock when his automobile turned over a number of times one mile east of Powell on Highway 31. Mrs. Elsie Knipe, aged 19 years, companion of Griffin at the time of the crash, is in the P. and S. Hospital in a critical condition with internal injuries and a broken arm. It was reported by officers who rushed to the scene of the accident that the automobile apparently struck the shoulder of the highway and turned over at least five times before it stopped.

Griffin and the wounded girl were rushed to Corsicana in a Corley ambulance.

Native of Alabama, Mr. Griffin was born in Alabama, Nov. 1, 1869. He had been a prominent farmer in the eastern section of Navarro county south of Kerens for many years. He was chairman of the Navarro county farm indebtedness conciliation board several years ago, after being appointed to the post by Gov. M. A. Ferguson. He always took an active part in political affairs.

Surviving are nine children: Mrs. A. D. Thomas, Overton; Mrs. Harve Travis, Corsicana; Mrs. J. H. Bruner, Corsicana; Mrs. Jack Cotten, Eunice, N. M.; Mrs. Tommie Phillips, Kerens; Joe Griffin, Kerens; Oscar Griffin, Kerens; Walter Griffin, Corsicana; and W. T. (Buck) Griffin, Jr., Kerens; seven brothers and sisters: Oscar Griffin, Yuma, Ariz.; Archie Griffin, Yuma, Ariz.; Charlie Griffin, Bailey Park, Mo.; Rufus Griffin, Yuma, Ariz.; Mrs. Elizabeth Mathis, National City, Calif.; Mrs. Martha Crow, Yuma, Ariz.; and Mrs. Emma Kilcrease, National City, Calif.

and a social hour was enjoyed, during which time cooling refreshments were served. Miss Ollie Campbell was installing officer, assisted by Mrs. Lottie Smith, G. M.

MRS. MURIEL PHELPS FILES FOR DIVORCE IN RENO WEDNESDAY

HEIRESS LARGEST AMERICAN FORTUNES SEEKS DECREE ON CRUELTY GROUNDS

RENO, Nev., June 17.—(AP)—Mrs. Muriel Vanderbilt Phelps, heiress to two of America's largest fortunes and a society leader on both sides of the continent, filed suit in divorce court here today to divorce Henry Delafelt Phelps of Newport, R. I. She charged cruelty.

A private, uncontested trial will be sought later today, her attorney, Leon Shore, announced.

Of published reports Mrs. Phelps will re-marry following the granting of the divorce, the attorney said "as far as I know there is no truth in them."

Shore said there was no property settlement involved in the divorce action.

Granddaughter of the late Virginia City, Nev., Bonanza King, Senator James G. Fair, who made millions in the gold and silver mines of the rich Comstock lode, Mrs. Phelps is reputedly one of the nation's wealthiest young women. Her paternal grandfather was the rich and socially prominent William K. Vanderbilt, Sr.

Phelps is a graduate of Princeton university and the son of Mr. and Mrs. Edgar Morris Phelps of Newport.

The heiress was divorced from her first husband, Frederick Cameron Church, Jr., former Harvard athlete, four years after their marriage in 1925. She was married to Phelps at Manhasset, N. Y., Sept. 11, 1931.

Mrs. Phelps came to Reno six weeks ago from her ranch home near Carmel, Calif., and has since resided at a guest ranch 20 miles south of Reno.

Her sister, the former Consuelo Vanderbilt Smith, was divorced from Earl E. T. Smith of New York City here Feb. 21, 1935.

Griffin's death is the sixth of the current year on highways in Navarro county and incidentally the fifth to occur between Corsicana and Powell on Highway 31, a funeral Thursday.

Funeral services will be held from the chapel of the Corley Funeral Home Thursday afternoon at 5 o'clock with interment in Oakwood cemetery. The rites will be conducted by Rev. E. T. Miller, pastor of the First Baptist church. Pallbearers will be members of the Kerens Masonic lodge. There were no witnesses to the crash. It was learned here. The tragedy was discovered by Orrell and Jimmie Pitts and families while riding along the highway. The motor was still running and the lights were burning, with both occupants thrown clear of the demolished car. A passerby was halted and an ambulance was summoned.

Cream Supper

There will be an ice cream supper at Dresden Cemetery Friday night, June 19th. Benefit of Pleasant Grove Baptist Church and Dresden Methodist Church. Everybody invited. Candidates welcome.

CANDIDATES HAVING TOWNSEND-COUGHLIN BACKING NOMINATED

TWO WINNERS AND THREE LOSERS COUNT FOR COMBINATION IN MAINE

By HARRY E. FARNHAM
Associated Press Staff Writer.
PORTLAND, Me., June 16.—(AP)—Candidates endorsed by the organizations of Rev. Chas. E. Coughlin and Dr. Francis E. Townsend won two nominations and lost three in Maine's primaries yesterday, unofficial returns indicated today.

Candidates backed by one or both organizations were nominated by the republicans in two of three Maine congressional districts. But a democratic Townsend-Coughlin backed candidate met apparent defeat in a close contest in the first district and a republican candidate for governor, endorsed by a Townsend organization lieutenant, was defeated.

The republicans nominated Lewis O. Barrows, secretary of state, for governor by a margin of 18,000 votes against Blin W. Page, Skowhegan banker, who received 11th hour backing from D. Clinton Wunder, member of the Townsend old age pension plan organization.

Harold F. Dubord of Waterville was nominated for governor by the Democrats without opposition. The state election takes place in September.

Candidates Unopposed.
Senator Wallace H. White, Jr. (R.), and Gov. Louis J. Brann (D), were unopposed for the nomination of their parties for the United States senate seat now held by White.

In the first congressional district, James C. Oliver, backed by both the Townsend forces and Coughlin's National Union for Social Justice, won by nearly 5,000 votes from his nearest competitor.

In the Democratic first district contest, however, Representative Simon M. Hamlin won renomination, on the basis of complete unofficial returns, defeating Joseph W. Connolly, 28, state representative backed by the Coughlin organization. The returns gave Hamlin 3,643 votes to 3,398 for Connolly and political observers said a demand for a recount was probable.

Not Represented.
The Coughlin group was not represented and the Townsend organization suffered defeat of its candidate, the Rev. J. Clarence Leckemby, in the second district where the republicans nominated Clyde H. Smith of Skowhegan, an old age pension advocate who said he had no use for the Townsend plan. Former Mayor Ernest L. McLean of Augusta was unopposed except for scattering sticker votes, for the Democratic nomination. Edward C. Moran, Democrat, refused to seek re-election in this district.

In the third district, Representative Ralph O. Brewster, carrying the Townsend group endorsement, was renominated by the Republicans without opposition. The Democrats nominated Wallace F. Maher, Jr., former mayor of Eastport, to oppose Brewster in the election in September.

PORTLAND, Me., June 16.—(AP)—

A Townsend-Coughlin endorsed candidate for the U. S. House of Representatives held the republican nomination in the first congressional district today while Townsend-approved candidates for the republican gubernatorial nomination and U. S. House of Representatives were defeated.

The fate of a young democratic state senator, who had the backing of the national union for social justice, remained in doubt because of the slowness of tabulating the vote.

Townsend and National Union for Social Justice ballots won James C. Oliver of South Portland the republican nomination for U. S. representative in the first district over a field of eight other aspirants.

The Townsend-endorsed Blin W. Page, Skowhegan banker whose campaign argument was that he "had made no promises," trailed far behind Lewis O. Barrow, secretary of state, for the republican nomination for governor.

In the second district Clyde H. Smith of Skowhegan, executive councillor, defeated the Rev. J. Clarence Leckemby of Pittsfield, endorsed by Townsends for the republican congressional nomination.

Doubt also hovered over the first district democratic race for congress. Representative Simon M. Hamlin, incumbent, fought it out with Joseph W. Connolly, young state representative, who bore the approval of the national union for social justice.

Senator Wallace H. White, Jr. (R.), and Governor Louis J. Brann (D) were without opposition in their respective parties.

F. Harold Dubord, Waterville, was unopposed for the democratic gubernatorial nomination.

Farley Is Pleased.
PHILADELPHIA, June 17.—(AP)—James A. Farley, democratic national chairman, found everything shipshape today for the party's national convention. After talking with other national committee officials and inspecting the huge public auditorium where the convention is to start next Tuesday, Farley said: "Everything is in good shape and we are satisfied it will be one of the most successful conventions ever held."

The party chief beamingly expressed his confidence that President Roosevelt would be re-elected next November.
